

# Powering What's Next

Jeff Ripp

*Director, Regulatory Strategy & Solutions*

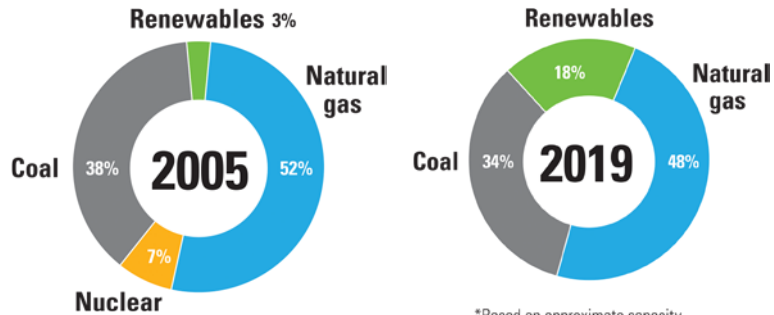

# Alliant Energy – at a glance

## Service territory

- 480,000 electric customers
- 191,000 gas customers

## Energy mix

\*Based on approximate capacity in megawatts as of December 2019

# Carbon goals

## Today:

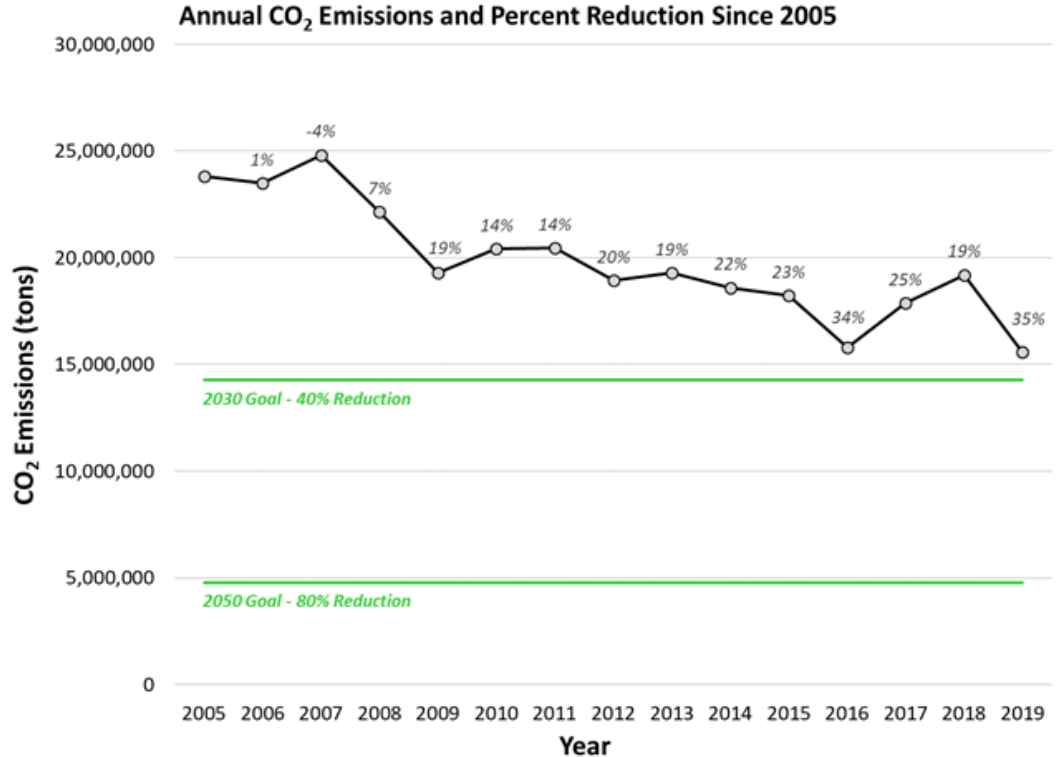

- Since 2005, reduced carbon emissions 35%

## By 2030:

- Reduce carbon emissions from fossil-fueled generation by 40%

## By 2050:

- Reduce carbon emissions from fossil-fueled generation by 80%
- Retire all coal

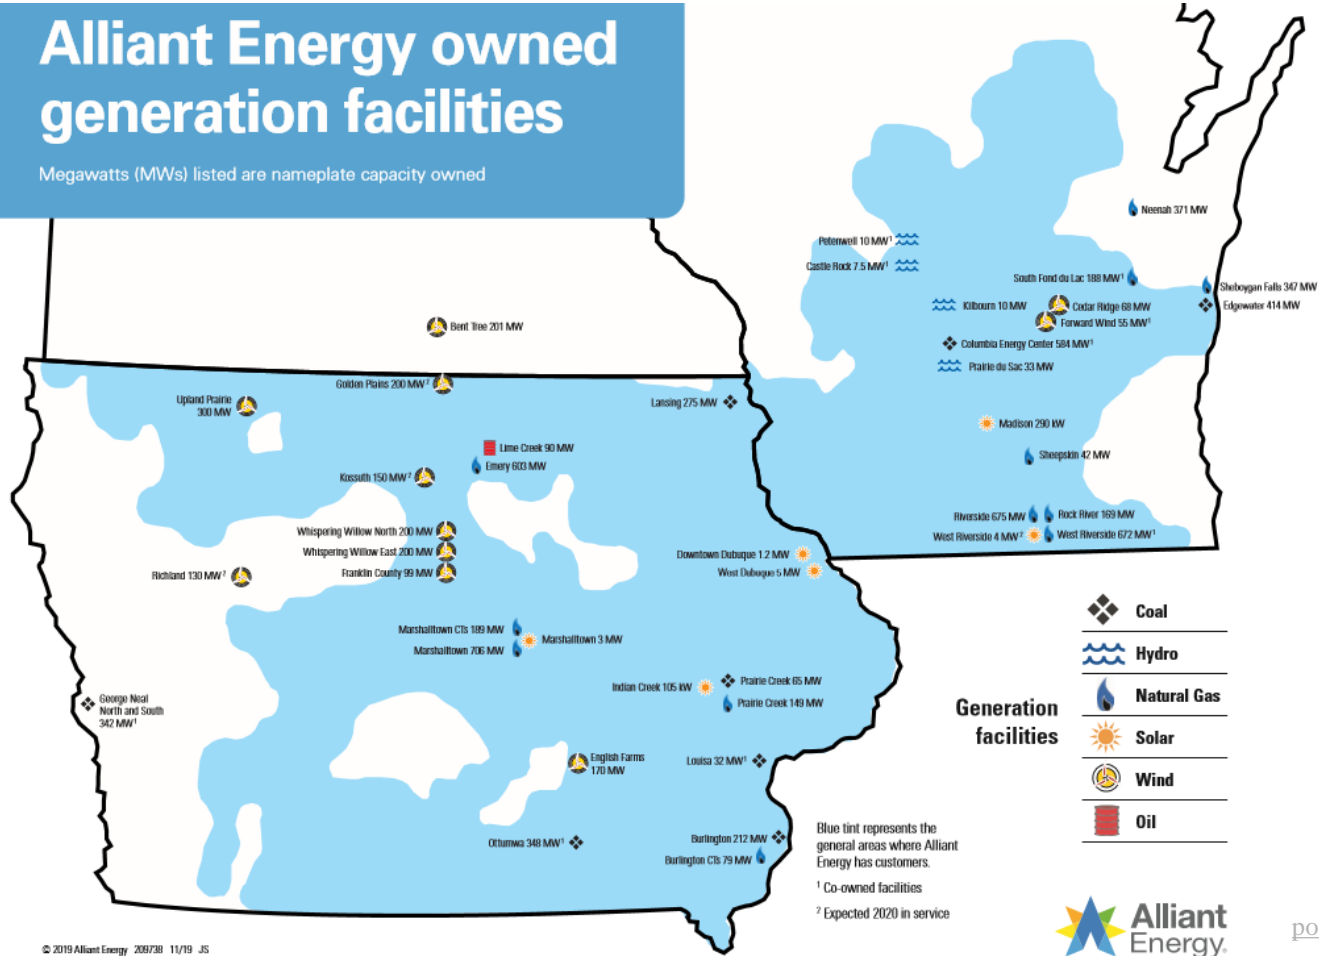

# Clean Energy Blueprint

- Wind: 150 MW in 2020
- Solar: Up to 1000 MW by 2023
- Customer choices:
  - Renewables
  - Access to data
  - Energy efficiency
- Smarter, stronger distribution grid
- Electrification
- Strengthening communities

# Alliant Energy owned generation facilities

Megawatts (MWs) listed are nameplate capacity owned
